GROWERS OF

FINE BULBS

1932-1933

WOODBURN,
OREGON

FOREWORD

Bulbs:

We offer only first size selected bulbs, from which no flowers have been cut.

Guarantee:

Our bulbs are guaranteed to be true to name, and free from disease or pests, being inspected and certified by government inspectors.

Delivery:

All orders amounting to \$1.00 or more will be shipped prepaid. On orders of less than \$1.00 add .25 for packing and postage.

Terms of Sale:

Cash with order.

6 bulbs of one variety at dozen rate.

25 bulbs of one variety at hundred rate.

DAFFODILS OR NARCISSI

These are almost the first flowers to bloom in the spring and by a judicious selection of varieties may be enjoyed over a period of two months. Most of them may also be forced for winter bloom. Our bulbs are grown in the famous Willamette valley of Oregon where soil and climate combine to produce the finest bulbs.

Prices are for large double nose bulbs. Round nose 25% less.

A splendid mixture containing many fine varieties and sure to produce satisfactory results50	3.50	
3 each of 12 named varieties, 36 bulbs, our selection,		\$2.00	

IRIS

DUTCH IRIS

The hardiness and wonderful coloring of the new Dutch Iris make them very popular for garden purposes, and they are unsurpassed for cut flowers. If cut as the first bud is opening, they will keep for two weeks in water. They begin to bloom early in May and continue into June. The bulbs should be planted in October.

	Doz.	100
D. HARING — White, very large flower. Early	\$1.00	\$ 7.00
E. B. GARNIER—Standards and falls uniform deep blue. 24 inches.....	1.00	7.00

	Each	Doz.
WEDGEWOOD—Standards blue, falls lighter blue, very early. 24 inches.....	.25	2.50

GERMAN IRIS

Our list of German Iris is issued in a separate circular and will be sent to anyone on request.

LILIES

Lilies are among the loveliest of the hardy plants, and lend a charm to the summer garden that cannot be obtained without their use. The ideal situation for lilies is in the hardy border, provided it is well drained and not too crowded, for here they will have the necessary shade

for the ground, while their beautiful blooms will stand out against the background of green. We have selected only those lilies which do well with ordinary care, and recommend that they be planted in the fall, although all except Candidum and Testaceum may be planted in the spring also.

	Each	Doz.
BULBIFERUM —Rich apricot flowers in umbel at top of stem. Bulbils in axils of leaves. Blooms early, easily grown and beautiful. June25	3.50
CANDIDUM (Madonna Lily) — Fragrant white hardy garden lily; very popular. June25	2.50
COLUMBIANUM (Oregon Lily)—A graceful golden yellow species, spotted maroon. Hardy and easily grown. Height 3 feet. June20	2.00

1 each of above lilies, 10 bulbs, \$2.00; 2 each \$3.50.		
SULPHUREUM —Long, large funnel shaped blooms, primrose yellow within, outside white tinged claret red	1.75	
TESTACEUM —One of the loveliest of lilies. Strongly recurved flowers of warm Nankkeen yellow with orange red anthers. June-July	1.75	

EARLHAM HYBRID MONTBRETIAS

These magnificent n Montbretias are finer in every way than the ordinary Montbretias, being taller and more luxurious in growth, and having flowers of great size and beauty. On the Pacific coast they may be planted in the fall, but in severe climates spring planting is best.

HIS MAJESTY—Deep velvety scarlet blooms, shading down to gold at the center; reverse of petals dark crimson shading down to gold.

QUEEN ALEXANDRA — Chrome yellow with carmine blotch at base of petals.

UNA—Flowers rich apricot with carmine blotch. A charming variety.

Any of the above varieties, 40c each, \$4.00 per dozen. Set of 3 bulbs, 1 of each variety, \$1.00.

SCILLA (Squills)		
CAMPANULATA—Fine spikes of lavender blue, bell-shaped flowers	.40	2.50
SIBERICA—Drooping, bel-like flowers of bright blue in March and April.	.50	3.50

TULIPS

Tulips are hardy and of easy culture, giving a brilliant display from early April to the end of May. Charming effects are obtained by planting them in the open spaces among the shrubbery or in the herbaceous border. For best effects allow four bulbs for each square foot to be planted. The varieties we offer are the best of their type and color.

EARLY TULIPS	Each	Doz.	100
